

REBELS CHAINED IN STREETS TO STOP AIR ATTACKS; U. S. WILL WITHDRAW SHIPS FROM SPANISH WATERS

CITY CAMPAIGNERS WIND UP ORATORY FOR PRIMARY VOTE

Voters Tomorrow Tell Candidates Their Fate in Important Election; Heavy Vote Is Sought; Seventy Are on Ballot.

LAST OF SPEECHES LISTED TONIGHT

Mayor, Seven Department Heads, Aldermen, Councilmen and Education Board Will Be Chosen.

Seventy candidates in the city primary last night wound up their campaigns for the 30 contested city offices on which Atlantans will ballot tomorrow. Included in the "last-minute" appeals for support by the 33,002 registered voters were addresses by all three mayoralty candidates. A total of 37 ballot boxes tomorrow will receive the fates of the various contestants.

Only sporadic outbursts are expected from unimportant stumps tonight as a few of the seekers for minor posts continue their last appeals for votes.

Atlantans tomorrow will nominate a new mayor for a three-year term, seven department heads for four-year terms, a dozen councilmen for three-year terms, six members of the board of education for three year terms and half a dozen members of the city Democratic executive committee for three-year terms.

Never before in the past half century of the city's history have the voters had the opportunity of selecting practically their entire governing personnel in one primary.

Nomination is tantamount to election in Atlanta, nominees of the Democratic primary being virtually always confirmed in the general election.

Eight persons qualified for various positions are without opposition.

Mayo Key, veteran of many local elections, however, faces two opponents—William B. Hartfield and James Leech Wells—both of whom expressed confidence of victory last night.

Key headquarters, however, contented itself with issuing an appeal for voters to cast their ballots and we are sure to be swept into office.

Constitution, WATL To Give Returns

Citizens of Atlanta and vicinity will be given fast and accurate city of Atlanta election returns tomorrow night, as the votes are counted for mayor, council and other city offices, through radio station WATL. The Constitution and WATL will jointly sponsor the broadcast which will start about 8 o'clock and continue until the final results are known.

The broadcast will be conducted from the newsroom of The Constitution. This election information will be the quickest and most complete possible to obtain. Not only will the result from each precinct be broadcast as quickly as the count is completed in each of the various races, but tabulations will be given at short intervals so that WATL listeners at all times will know the progress of the count of the ballots.

The public is asked not to call.

The Constitution for election returns.

It is necessary to make this request because in this way better and faster service can be given to expediting the gathering of returns.

Get your information first through The Constitution—WATL city election broadcast tomorrow night.

The Constitution's experience in broadcasting election returns assures you that by listening to WATL you will have the news first.

PRESIDENT ON WAY TO DERN FUNERAL

Roosevelt Surveys Nebra; His Car Is Then Attached to Utah Special

ABRAHAM ROOSEVELT TRAIN EN ROUTE TO SALT LAKE CITY, UTAH, AUG. 31.—(AP)—President Roosevelt looked over a northwestern Nebraska drought zone today, displaying particular interest in summer fallowing, then headed westward for funeral services in Salt Lake City tomorrow for Secretary of War George H. Dern.

By telephone and telegraph along the way, the President kept in contact with Washington in connection with the bombing of the American destroyer Kane yesterday off the Spanish coast.

At Sidney, Neb., Mr. Roosevelt's private train became the second section of the special carrying Dern's body.

It was at Sidney also that the President stopped to survey drought conditions in southwest Nebraska. Drawing up beside a microphone before he began a 20-mile ride through the parched countryside, the President spoke briefly to several thousand people.

RIVERS PROMISES TALMADGE REGIME EXPENDITURE QUIZ

**Complete Investigation
To Be Followed by Prosecutions, He Says; Old Age Pensions Advocated**

A full and complete investigation of all of the expenditures of the Talmadge regime, to be followed by prosecutions when warranted, was promised last night by E. D. Rivers.

Addressing a rally of his friends and supporters on the Ansley hotel roof, Rivers emphasizes the need for a drastic probe of all of the ramifications of the present administration, asserting that from all over Georgia he has received reports of violations of the law by state departments and their executives.

"Friends of the Talmadge administration have deposited with an insurance company \$200,000 to guarantee the bond of the Governor's illegally appointed treasurer, J. B. Daniel, and they know that this bond will be forfeited and their money will be lost when the illegality of the operations is laid before the general assembly," the candidate said. "I shall call upon the attorney general of Georgia, whoever he may be, to lay all the facts before the general assembly and demand action of that body."

Electron Workers.

Speakers at the rally said it had reliable information that hundreds of persons have been added to the pay roll of the State Highway Department whose sole duty is to work for Talmadge and his candidate for governor, Charles D. Redwine.

For the past two years practically every home fire worker in the offices controlled by Talmadge has had to undergo drastic cuts of salaries in order that the Talmadge organization might accumulate funds with which to pay these election workers." Mr. Rivers said. "These good people who have been rendered jobless seem to have literally been starved in order that by election time the Talmadge war chest would have a supply of gold to buy all Georgia."

"I know and the people of Georgia know that these bona fide workers in the state government have been forced

to leave their jobs.

TALMADGE SPEAKS IN NORTH GEORGIA

Talks in Republican Stronghold, Urging All To Vote on Primary Day

BLAIRSVILLE, Ga., Aug. 31.—(AP)—Talmadge, who is seeking reelection for United States senate, speaking in this Republican stronghold of north Georgia, told his audience today that every white voter was entitled to cast his ballot in the September 9 primary and urged them to do so.

The Governor came here from Colorado, where he spoke earlier in the day defending his state administration and attacking his opponent, Senator Richard B. Russell Jr., for supporting Republicans in the Roosevelt cabinet.

It was at Sidney also that the President stopped to survey drought conditions in southwest Nebraska. Drawing up beside a microphone before he began a 20-mile ride through the parched countryside, the President spoke briefly to several thousand people.

Cobb Says: Take The Liberty League

By IRVIN S. COBB.

(Copyright, 1936, by American News paper Alliance, Inc.)

SANTA MONICA, Cal., Aug. 31. No more than a single group of advanced political think tanks holding meet at Cleveland, Ohio, these past few days, the question naturally arises that perhaps the supply of halls small enough for holding this type of national convention in has become exhausted. But that couldn't be, because once or twice already this summer the attendance was so enormous the delegates could snuggle into a telephone booth.

Of course, we must continue to have the great parties so that about once in so often the Honorable Bainbridge Colby may have something to bolt from. But it must be awfully disappointing to get up a third party only to discover it's about the third for the current year.

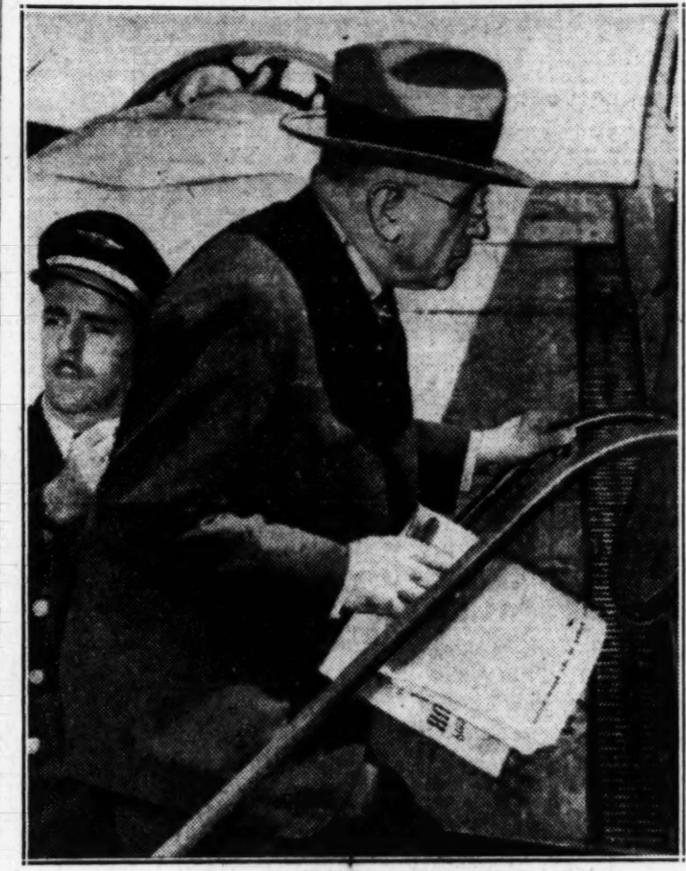

The boys put on a wonderful ticket that the land and so it does spread-like chilled snot. They call on the people to rise in their might, but, when the returns come in, are painfully forced to learn the people of this country are in the minority.

One place, however, is getting just up and died on their hands right in the middle of the campaign.

Take the Liberty League—exquisitely horn, with a lovely chivalrous party, and now it's not mentioned even in the obituary columns.

"The now notorious affidavits of

Ickes Flies to Site of His 2d Tragedy in Year

Secretary of Interior Harold Ickes is shown above as he boarded a plane from Washington for Chicago, where his foster son, Wilmarth Ickes, 37, committed suicide yesterday. The secretary's wife, mother of Wilmarth by a previous marriage, was killed in an automobile accident in New Mexico, August 31, 1935. Associated Press photo.

NINE MEN INJURED BY HEATER BLAST

**Father of Three Found
Shot, to Death 1 Year
After Mother's Tragedy.**

CHICAGO, Aug. 31.—(AP)—Tragedy struck on the last day of August for the second successive year into the family circle of Secretary of the Interior Harold L. Ickes, its victim last night at St. Joseph's infirmary.

Four others were reported to be in serious condition. They were listed as:

Floyd Gattis, butcher, burns about the face and arms.

O. F. Murphy, government inspector, burns.

W. L. Lee, foreman of the fancy meat department, severe bruises.

Dr. David Cogger, government inspector, bruises.

Buntz, a butcher, suffered burns and a fractured skull, believed to have been caused by a fragment of steel.

Four others, less seriously injured, were given emergency treatment at the plant. They were J. G. Wright, M. O. Brennan, James Born and Alex Woodward.

The explosion occurred at 7:15 o'clock, about 15 minutes after a 25-gallon water heater was lighted, according to investigators. It sprayed scalding water on the men in the hot-killing room, where the heater was used as a sterilizer in dressing hags.

Just one year ago today, his mother, Mrs. Anna Wilmarth Ickes, wife of the secretary, was fatally injured in an accident in which she was shot dead by the caretaker at the parental home in Winnetka, Ill.

The secretaries' son, Wilmarth Ickes, 37, was buried yesterday at the cemetery in Winnetka, Ill.

Oklahoma Is Denied Chilton Extradition

ATHENS, Greece, Aug. 31.—(AP)—Governor Martin L. Davey late today refused to grant extradition of Carlton B. Chilton, Ohio's modern Jean Valjean, to Oklahoma to stand trial on a charge of two-year reformatory sentence interrupted by his escape in 1914.

"I can see no possible good to society to get this man back," said Davey in ruling against an Oklahoma request that the Cleveland citizen be returned on the old bank burglary charge.

Secretary Ickes reached here by airplane shortly after 5:10 p.m. and

Crisp's Campaign Manager in '32 Announces Support of E. D. Rivers

AMERICUS, Ga., Aug. 31.—W. W. Crisp, prominent attorney who managed the Crisp campaign for the senator two years ago, in a statement today declares his unequivocal support of Rivers for governor.

"Whatever doubt may have existed in south Georgia as to Rivers carrying an overwhelming majority of the vote, that doubt has disappeared," he said.

He added: "I am fully satisfied that Rivers will be elected."

Continued in Page 3, Column 6.

which so much has been said are significant.

They were prepared at the instigation of outside sources and their falsity is attested by the fact that in the very campaign referred to, Rivers was an ardent supporter of Deen for congress.

Deen had urged the people to make the race, declaring that he would not oppose him. Rivers actively supported Deen in person and in his paper and there is not a Democrat in south Georgia who doubts his loyalty both to the party either before or after the campaign of 1932.

"The effect of these affidavits has been to greatly strengthen Rivers throughout the state and especially in south Georgia where he is best known.

"The opposition never had a chance best of carrying more than a few

percent in the campaign of 1932.

2 KANE OFFICERS ARE GEORGIA MEN

Both Roosevelt and Hull Warn Spaniards; Most Serious Incident Since Sinking of Maine, Is View

WASHINGTON, Aug. 31.—(AP)—Apprehensive lest more American naval vessels be made the targets of explosives in Spain's civil war, the United States tonight rushed plans for withdrawing all government ships from Spanish waters at the earliest possible date.

Secretary Hull announced at a press conference that the government expected "within the next few days" to determine by what date the rescue operations of United States naval and coast guard ships in Spanish waters could be terminated.

His statement was made after telephone communication with President Roosevelt came from the drough area and while the State Department awaited an explanation from both sides in the Spanish conflict of the attempted bombing of the American destroyer Kane by an unidentified plane yesterday.

The destroyer, which was undamaged, fired nine rounds at the plane from its anti-aircraft gun but failed to score a hit.

Despite the plain intention of the government to withdraw its fleet in the event the war took a sudden turn against it.

Pencil to match either, \$3

GARNER ORDERS PROBE IN SENATE CONTINUATION

WASHINGTON, Aug. 31.—(AP)—Vice President Garner late today asked United States District Attorney Leslie C. Garnett to present to the grand jury the case of six Railway Audit & Inspection Company officials who failed to appear before a Senate committee yesterday.

The committee, headed by Senator La Follette, Progressive, Wisconsin, is investigating the alleged use of labor "spies" by employers in disputes with their employees.

At the end of the hearing the attorney for the company told the committee an injunction was being sought in federal court to prevent the officials' appearance and to prohibit production of their records.

Those cited by Garner to Garnett were:

W. W. Groves, of Pittsburgh and Philadelphia, president of the company; W. B. Groves, Pittsburgh, vice-president; Earl Douglas Rice, Pittsburgh, secretary-treasurer; R. S. Judge, of New York, director, and J. C. Boyer, Pittsburgh.

Colonel H. B. Hackett will be the principal speaker today on a program beginning at 4 o'clock on the west side of Techwood drive between Merritts avenue and Pine street. Mayor Key has officially proclaimed today as Techwood day and, as part of the dedication program, a rose bush, donated by Mrs. Frank D. Roosevelt, wife of the garden of the President's home at Hyde Park, N. Y., will be planted on the grounds of Techwood Homes.

George to Speak.

United States Senator Walter F. George, Congressman Robert Ranspeck and Mayor Key also spoke at an excursion over which will preside Dr. M. L. Brittain, of Georgia School of Technology, and chairman of the Atlanta advisory committee for the project.

Due to storm sewer construction which is still in progress on Techwood drive, across main avenue of Techwood Homes, it will be necessary for those attending the ceremony this afternoon to turn westward from Spring street into Pine street or Merritts avenue.

Incomes of those already in the Techwood project, except in a Negro slum district, vary from \$15 to \$35 a week. Secretary Ikes has announced that future tenants must have incomes of no more than five times what they pay.

"People say the government is not taking care of the man in the gutter," Hackett said yesterday. "The only way to take care of him is through relief. But there's the man who can pay a nominal rent. He must be taken care of and the only way to do it is through a subsidy."

The government has written off 45 per cent of the cost of the project, the first of 50 to be financed entirely with federal funds. It expects to get back the money at a 5 per cent interest, from rentals over 60 years.

Hackett said England had been in the housing business since 1919 and subsidizes its tenants up to 57 per cent.

ATLANTA CAMPAIGNERS WIND UP VOTE BATTLE

Continued From First Page.

for a new term by an overwhelming vote." Headquarters warned against overconfidence.

Electorate Quiet.

Wells and Hartsfield issued practically the same statement, and the electorate last night was awaiting calmly the opportunity to cast its ballot for the favorite.

While today was the calm before the storm, no speaker candidates will wear their usual expressions of apprehension. The nervous strain of a campaign, which has commanded little local interest because of the overwhelming pre-eminence of heated sectional and international contests, has taken its toll.

Realizing the futility of attempting to hold mass meetings to any appreciable degree and witnessing the poor attendance and the general apathy of campaign, which has commanded little local interest because of the overwhelming pre-eminence of heated sectional and international contests, has taken its toll.

Key and Hartsfield have been more fortunate in getting crowds to their rallies but even they have been disappointed.

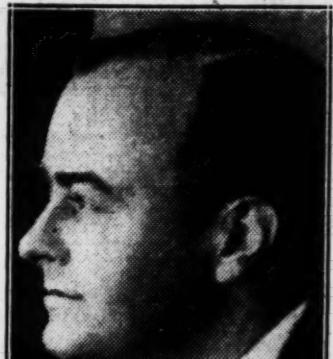

Amplifying Apparatus.

Both Hartsfield and Key have equipped themselves with amplifying apparatus, and these have aided in drumming up a curious public, but the enthusiasm of former mayoralty battles, the smoking, fever heat formerly displayed, has been lacking.

Key last night repeated his claim that he has never forced the city from being forced into bankruptcy because of his watchfulness over the city treasury. He recounted how he has preserved the credit of Atlanta while other cities were facing fiscal disaster, and asked voters to elect him for a new term "in view of my policies and my achievements."

Hartsfield Promises.

Hartsfield continued to play Police Chiefs T. O. Sturdivant and A. LaMar Poole, to chide Mayor Key for his

Succeeds as Post Editor

He has contended that Key has served as a useful member of the city's department administration and ended his bid for preference by asserting "since I am the only businessman in the race, I am confident the people of Atlanta want me for mayor."

Jaycees Seek Votes.

The Atlanta Junior Chamber of Commerce has endeavored to get a large number of people to the polls in the primary.

Members of the Atlanta Retail Merchants Association and other industrial and merchantile establishments have agreed to remain closed until 10 o'clock tomorrow morning in order that all employees will have ample opportunity to cast their ballots before going to work.

A special committee from the Junior Chamber and the retail merchants' group have been working out details of the heavy vote drive for several weeks.

Free transportation will be furnished any voter who can not get to the polls by calling the Chamber of Commerce, Walnut 0845, it was announced yesterday.

Reservations, however, must be filed with officials there by 8:30 o'clock tomorrow morning.

If the drive is successful, it is contemplated that the same free service will be made available in the state and county primary election, Wednesday, September 9.

publicities south of Macon and the Republicans will do the same in those counties where the Democratic party is attempting to create discord in the Democratic ranks.

"The Rivers majority in all counties south of Macon will be something in the nature of landslide and I would not be surprised to see the same thing happen throughout the state."

Wells has insisted that Key has bungled management of city financial affairs, that the mayor has "adopted a crack-pot policy of city administration" and that a change is inevitable.

Hartsfield Promises.

304 Broad St., Cor. Als.

IMPORTANT NOTICE

On January 1, 1937, the Aldermanic Board will be reduced from thirteen members to six; in the hands of these six men will, to a great degree, rest the responsibility of an honest and capable administration of Atlanta's finances. The importance of the new Aldermanic Board demands the serious attention of every voter and THE ENTIRE CITY VOTES.

JOHN SCOTT

In response to public demand, John Scott has become a candidate for the Alderman's seat representing the New First Ward. His record during the past six years in our City Council should bring your support.

His opponent for this position gave his time principally to acting as Chairman of the old Police Committee; it is a matter of record as conditions became so bad in the Atlanta Police Force, that in answer to public demand, City Council finally abolished that committee altogether.

John Scott always has, and always will, represent the element that demands law, order and sound government, and his friends solicit your support of his candidacy.

Friends of John Scott.

one of the quarrels in which the state government of Georgia has floundered for the last four years, we will build a new commonwealth dedicated to honest, clean government of, by and for all the people of our state," Mr. Rivers pointed out.

The meeting last night was the regular weekly gathering of Redwines, especially dedicated to the Georgia Old Age Pension Association, and presided over by W. W. Webb, of Hahira, president of that association. Mr. Rivers devoted a portion of his address to the discussion of the old age pension association.

Constitutional Amendment.

"I am here, as you know," the President said, "on the sad mission to attend the funeral of a very distinguished American, Secretary of War George Dern. You all remember that Dern was a native of Nebraska.

Because of this mission I cannot with propriety make a long speech to you."

He said he merely wanted to look into the problems of a part of Nebraska and "learn what you have done in relation to summer fallowing."

To that process, in which he said he understood western Nebraska had taken the lead, he attributed the "making of a 20 per cent crop."

"There are lots of sections in other parts of the country," he added, "which have not yet adopted it."

Then he voiced a conviction that again he would find in Nebraska the same degree of co-operation among federal, state and local agencies in combating the drought that he had noted elsewhere in the great plains drought area.

TALKS TO FARMERS.

Aboard his train later the President talked over drought problems with a group of federal and state officials and local representatives of the farmers.

His motor trip took him over a road reclamation project on which farms whose crops had been ruined by drought were receiving WPA employment, between brown fields where only a partial harvest had been possible and up to the farm home of O. D. Burris.

For 10 minutes the President leaned over the side of his car to talk to another of the overall-clad farmer and his wife.

"Gosh, that's pretty tough," he observed when Burris said that after his crops were up they had been hauled out.

He learned that Burris, with the aid of 1,570 PWA fieldmen, had planted 320 acres and wondered whether any of the loan could be repaid this year.

"Well, I hope so," the farmer responded. "I'm surely going to try."

URGES FREE PLANTING.

Mr. Roosevelt remarked that some farms ought to be set out on the farm and Burris agreed he "sure need some."

On several farms along the way the executives saw summer fallowing under way. It consists in working the soil to conserve moisture and keep down weeds so it will be in excellent shape for planting winter wheat in the fall.

"Do you do summer fallowing on your wheat land?" the President asked Burris.

"Yes, 106 acres."

Representative Coffey, Democrat, Nebraska, and Clayton Radcliff, Cheyenne County Democratic chairman, rode beside the President, who expressed regret that illness had prevented Governor Cochran, of Nebraska, from being present.

The presidential special is due in Salt Lake City about 8 a.m., mountain standard time (10 a.m., Atlanta time) tomorrow.

The train passed at Cheyenne early in the afternoon for servicing, but Marvin McIntyre, presidential secretary, explained the President felt it best to leave the train to the funeral.

PRESIDENT CALDWELL HOLDS ANNIVERSARY

Youthful Head of State University Completes First Year in Office.

ATHENS, Ga., Aug. 31.—(P)—Dr. Harmon W. Caldwell, the nation's youngest head of a state university, completed today his first year as president of the University of Georgia, the first one chartered by a state.

The modest, never spectacular, 37-year-old educator and former attorney, had little comment on the anniversary. He said:

"In many ways I am pleased with the results of the past year. Of course there are so many things unfinished and there is so much all of us hope to accomplish that the coming year will be a busy one."

Several university officials said they considered President Caldwell's reduction of administrative units from 25 to 13 the most progressive step of the year. The change has greatly promoted efficient management, they added.

Others thought the following among chief events of the year: Acquisition of 2,000 additional acres of land for the College of Agriculture, inauguration of an expansion program for the University System by Chancellor S. V. Sanford, and restoration of the historic buildings and beautification of other buildings and grounds on the three campuses here.

There was evidence of optimism as faculty members made plans for the opening of the 1936 university session September 23.

Ex-Governor of Texas to Honor Georgia Girl

TROUTMAN EXERCISES WILL BE HELD TODAY

Former Governor of Texas To Speak at Knoxville as Tablet Is Unveiled.

KNOXVILLE, Ga., Aug. 31.—(P)—A granite boulder and marker in honor of Miss Joanna Troutman, who 100 years ago made and presented to a group of soldiers a silk lone star flag afterwards made the Texas state flag, will be installed here tomorrow.

The 17-year-old girl gave the flag to a company of Georgia soldiers, formed at Macon, who marched through here on their way to fight for Texas' independence.

Former Governor C. B. Colquitt, of Texas, will be the principal speaker on the occasion.

The boulder and marker will rest on the site of the old Troutman inn, which was destroyed by fire in 1914.

Scheduled to start at 10 a. m. central standard time, (11 o'clock Atlanta time) the program will be followed by exercises by the 100th Infantry, Eddie D. M. High's tribute to Georgia Soldiers Who Went to Texas in 1835," Colonel Ellsworth Hall Jr., of Macon; presentation of marker on behalf of WPA and Georgia Tech, where it was made, W. S. Dennis, of Macon; presentation of marker, Stiles of Atlanta, a native of Crawford county, and speech of the move to acceptance of the tablet, Miss Margaret Harris; unveiling by Frank Troutman Jr., of Atlanta, and Mary Emma McCrary, of Roberta; Texas' tribute to Miss Troutman, former Governor Colquitt.

"Taps" and a salute in memory of the soldier who died will be given by national guardmen from Macon.

Mrs. Baker McGee, of Knoxville, is local committee chairman.

The Georgia soldiers to whom the flag was presented were all practically wiped out at the Goliad massacre on Palm Sunday, 1836.

Following the exercises, ex-Governor Colquitt will be guest of honor at a luncheon served by the local committee, after which he will be taken to Elmwood, the ancestral home of Miss Troutman, eight miles west of here.

Colquitt, a native of Camilla, Ga., was governor of Texas in 1913 when the body of Miss Troutman was moved from Georgia to Austin, Texas, where a monument was erected over her grave.

ATLANTA, GA., SEPT. 1, 1936.

DEMOCRACY AT STAKE

Every day it becomes more con-
vincingly apparent that the trans-
cendent issue in this campaign is
the fate of Democracy in Georgia—
whether the voters will continue to
support the political principles of
their forefathers, or lend their aid
to a return of the government to
the Republican party, from which
Georgia has received little, expect-
ed less, in the past.

The forces behind the effort to
continue Talmadgeism in Georgia
become more conspicuous as the
campaign progresses.

When the Governor was ob-

sessed with the idea that he was

presidential timber, he traveled over

the nation, speaking to gatherings

of Republicans and joining with

them in traducing the Democratic

administration and repudiating its

achievements.

There followed the notorious
grass-roots convention at Macon,
engineered by men now on the pay
roll of the Republican campaign
committee and sponsored by Governor
Talmadge. The expenses of this
meeting were paid from the treas-
uries of the Republican party and
the Liberty League.

Some weeks ago the state's first

cotton bale was presented to the

Governor as a contribution to his
campaign fund. It was grown by
a Republican.

The moving spirits in many of

the meetings addressed by the Gov-
ernor have been Republicans, and

he has been introduced and has

spoken before gatherings presided

over by men who never cast a
Democratic vote in their lives.

As a desperate move to try to

hessmire the record of the gubernatorial

candidate who is the choice of

the great majority of the Democ-
rats of the state, affidavits have

been secured from Republican lead-
ers willing to further in any way

possible the effort to scuttle the

Democratic party.

With each new revelation of the

real forces behind the Talmadge

campaign, the chief issue is brought

into clearer relief—whether Geor-
gia will forsake for the first time

in history the Democratic party and

go over to the Republicans.

That is what the success of Tal-
madgeism in Georgia will mean. On

the other hand, the defeat of Tal-
madge, and of his candidate for gov-
ernor, who declares he is back of

every Talmadge policy, will mean

that Georgia joins her sister states

of South Carolina, Mississippi and

Arkansas in giving overwhelming

support to those leaders who

stand for the Roosevelt administra-
tion.

The people of every state in the

south realize that this section has

received more recognition from the

Roosevelt administration than from

all the Republican administrations

of the last half century.

The new prosperity that has

come to the farmer, the laboring

man, the merchant and the indus-
trialist in the south is the result

of the beneficial policies of the ad-
ministration.

Knowing that it would be hope-
less to try to overturn the Demo-
cratic south by direct attack, the

Republicans have sought by every

subversive method at their com-

mand to stab Democracy in the
back in this section.

The Talmadge campaign in Geor-
gia is the spearhead of their un-
dercover campaign.

Thus the paramount issue in
Georgia is whether the Democratic
party in the state shall go down to
defeat before a Republican engi-
neered and financed attack.

There can be no doubt as to
where the people stand on a lineup
so apparent as the forces behind
the Talmadge slate.

PEACE WITH A MAILED FIST

The British fear that "the delicate
European situation will be fur-
ther surcharged" by the belligerent
tone of Dictator Mussolini's address
upon the conclusion of the annual
Italian army maneuvers is not sur-
prising.

With the British openly fearful
of an imminent continent-wide war,
the French growing more and more
jittery, and with Hitler and Stalin
building huge war machines, the
Italian dictator boasts that he can
"mobilize 8,000,000 soldiers in the
course of a few hours and after a
simple order."

Sincere as may have been Il
Duce in his subsequent assurance
that Italy desires only to live in
peace and his pledge of "our last-
ing, concrete contribution to the
project of collaboration among peoples,"
his figurative shaking of a
mailed fist in the faces of the other
nations of Europe can hardly be ex-
pected to encourage that spirit of
trust and co-operation that must be
the basis of lasting peace.

With the larger nations of Europe
frantically adding to their armaments,
and with the smaller countries
busily forming "defensive" groups,
the fluttering dove of peace has
few places on the continent upon
which it can alight.

The United States is fortunate
that at such a tense time the na-
tion has the safeguard of the neu-
trality policies to which President
Roosevelt and Secretary of State
Hull are pledged.

The comparative ease with which
we could be drawn into the Euro-
pean maelstrom if we are not con-
stantly on guard is revealed in the
bombing by a Spanish airplane of an
American gunboat on its way to
rescue citizens of this country endan-
gered by the revolution now going
on in Spain.

The world must be made to real-
ize that the American flag and
American nationals must be res-
pected wherever they are, but that
end can, through wise diplomacy,
be achieved without running the
danger of again involving us in con-
troversies that are none of our busi-
ness and through participation in
which will be denied us.

The future of Europe

Dependent on Outcome.

It should be stated that an attack
by Franco on the British fleet or an
attack by his henchmen on the Ger-
man, Italian and British intervention.

If it will then be argued that the
Madrid government has not sufficient
authority over its own nationals to
protect foreign interests in Spain and
therefore must be coerced to make
room for another. As there is no other
alternative to the present govern-
ment, the interventionists, both German
and Italian, will be helped into the
saddle by the Italian and German in-
terventionists.

Future of Europe

Dependent on Outcome.

Resignation of the Giral government
under foreign pressure would most
probably create great confusion in
Spain. Removal of the Royalists and
German, French, English, Americans
and Spanish forces from the
country in favor of a regime of their
own selection, that of Franco and his
associates. The Spanish civil war is Hitler's
most determined attempt to para-
lyze France before starting his pro-
gram of the conquest of eastern Europe.
The struggle is so acute, dangerous
that one may well say that the history of
Europe for the next decade will be
dictated by what takes place in Spain
before the end of the month of Au-
gust.

LUXURY IMPORTS GROW

The increase in the buying power
of America is revealed in the report
of the Department of Commerce that
imports into the country for the
first seven months of the year
totaled \$1,356,562,000, an increase of
\$184,465,000 over the \$1,174,-
097,000 total of imports for the
first seven months of last year.

The Department of Commerce
points out that "it is of interest
to note the type of imports show-
ing heavy increase, nearly half of
the increase for July being items
representing, for the most part,
luxury or commodities not pro-
duced to any great extent in this
country, these including furs,
liquors, wood pulp and paper,
nickel and tin."

The increase in imports of this
nature and the tremendous growth
registered in the number of Ameri-
cans spending their vacations this
summer in foreign countries give
convincing assurance that the peo-
ple of the United States are again
and as before gazing at the sun.

As a desperate move to try to

hessmire the record of the gubernatorial

candidate who is the choice of

the great majority of the Democ-
rats of the state, affidavits have

been secured from Republican lead-
ers willing to further in any way

possible the effort to scuttle the

Democratic party.

WIFE GIVEN 10 YEARS IN TRAIN-WRECK PLOT

MILTON, Fla., Aug. 31.—(AP)—Mrs. Mary Vann, of Pensacola, was sentenced to 10 years' imprisonment today for conspiring to wreck the passenger train operated by her elderly husband, L. M. Vann.

The state charged she and Earl Travis, a carpenter, planned to wreck Vann's train in order that they might collect his life insurance and be married.

Vann said his train twice rumbled safely over a buckling rail.

Hungry Tar Grabs Crust, Chokes to Death at "Y"

NEW YORK, Aug. 31.—(AP)—Ernest C. Gossen, unkempt and weary, walked today to a Brooklyn seaman's branch of the Y. M. C. A. and, speaking not a word, hurried to the kitchen.

The first bit of food he saw there was a crust of bread. He wolfed it in one great gulp and began to cough. Men at the "Y" pounded him on the back, rolled him over.

A doctor was called.

"Choked to death," he said.

FOUR OTHERS WAIVE FRAUD EXAMINATION

CHICAGO, Aug. 31.—(AP)—Four more of the 24 defendants indicted on a federal grand jury at Gainesville, Ga., on charges of mail to defraud in connection with an alleged \$10,000,000 stock swindle, waived examination today before United States Commissioner Edwin K. Walker and posted bonds of \$2,500 each for their appearance for trial this fall.

The four who waived were Frank Berger, Meyer Wolfson, Max Oxman and Joseph Ricebaum, all of Chicago. Seventeen defendants have now waived.

BOY BURIED IN CAVE

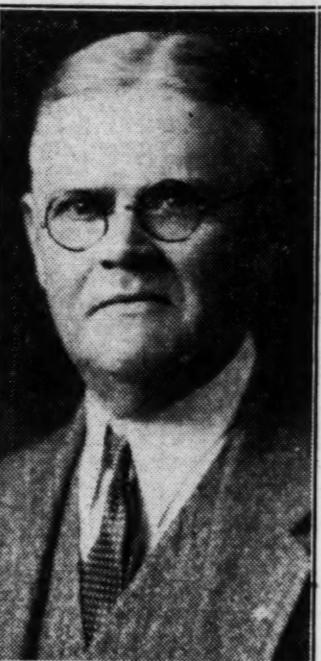

HOPEWELL, Va., Aug. 31.—(AP)—Winston Daniels, 12, of Hopewell, was buried and smothered here today when a cave he and a boy companion were exploring near the National cemetery collapsed. L. E. Askey, 16, dug at the sand 25 minutes and freed Daniels' head but by that time the boy was dead.

**WOMEN SUE COMPANY FOR SEASICK DAMAGES**

NEW YORK, Aug. 31.—(AP)—Five women filed suit in federal court today for damages totaling \$126,500 because they got seasick on the liner Prince David, operated by the Canadian National Steamship Company, Limited.

The women, Marcel Zimman, Elizabeth Solis, Ida Brodsky and Rose Robinson, all of Philadelphia, and Pauline Houston, of Welch, W. Va., said they suffered "great distress and anguish" on the ship which sailed from New York for Hawaii and Alaska. Miss Zimman left the ship at Vancouver, British Columbia.

COMMERCE INSPECTOR IS KILLED IN TEST HOP

JOLIET, Ill., Aug. 31.—(AP)—Cecil De Lassau, of Chicago, an inspector for the United States Commerce Department, was killed tonight in the crash of an airplane he was testing for the National Air Races at Los Angeles, Cal.

The ship, a low-wing monoplane, apparently stalled at a height of about 1,000 feet, Joliet airport officials said, spun down to 500 feet and then fell to the earth three miles south of the airport.

N. E. He was a steward of the Druid Hills Methodist church, a Mason and a Shriner.

Funeral services were held yesterday for B. Frank Bell, church and civic leader and president of Bell & McFarland, Inc. Burial was in West View cemetery. Mr. Bell died Saturday at his residence, 930 Rupley drive,

in the year.

In the standings of individual divisions for 1936 the two units comprising the Atlanta battalion took thirteenth and nineteenth places in a total of 148 divisions throughout the country.

Houston, Texas, was next in standing, followed in southern cities with fifty-first place.

Lieutenant Harry F. Dobie, U. S. N. R., is commander of the Atlanta battalion. Lieutenant W. B. Tucker, U. S. N. R., is commanding officer of the first fleet division and Lieutenant M. R. Sanders is commanding officer of the second fleet division. Lieutenant George C. Griffin is battalion executive officer. There are 18 officers and 180 enlisted men in the Atlanta unit.

Communication Corps Praised.

The communications corps of the Atlanta battalion has gained wide recognition and praise for establishing reliable communication between Atlanta and storm-stricken cities in Georgia and neighboring states when other means of communication had failed. First direct contact with Gainesville was established by the corps when that city was demolished by the tornado April 6.

The communications corps has also been of great value in establishing communication with hurricane-swept Florida cities on numerous occasions.

Battalion Increased.

Each fleet reserve division of the Atlanta battalion was increased by ten men this year in keeping with the policy of the federal government of continually increasing the national defense.

The interest of young men here in naval reserve work was shown by the fact that the 20 additional men were standing by to fill the quota and all vacancies were filled July 1, the date of the authorized increase.

The Atlanta battalion will be strengthened further by an additional complement by next year, according to officials here. The battalion drills in the Tech naval armory, which is fitted out to simulate a regular battleship.

The United States destroyer Kane, which was bombed Sunday by an unidentified plane off the coast of Spain, was used several years ago by the Atlanta naval reserve battalion for its summer cruise.

'COWARDICE' OF FOE SCORED BY RUSSELL

Continued From First Page.

for the speaking and the stores closed in honor of the occasion. Motorcycles brought Russell supporters from Plains, Barnes and Appling counties.

After the senator had completed his address, speakers from the 12 counties participating in the rally were heard. Other counties represented were Ware, Elbert, Wayne, Atkinson, Clinch, Brantley, Charlton, Coffee, and Fulton.

Russell, attacking Governor Talmadge for preventing the federal government bringing old age pension money to Georgia, said:

"After the first of the year Georgia won't have a red suspended governor but a governor who will have a heart and let these old people get their money."

Cry for Rivers.

Several in the crowd shouted "Rivers, Rivers."

Russell nodded his head.

E. P. Russell is a candidate for governor and one of his chief planks is old age pensions.

A bale of cotton, donated to the Russell campaign locally, was auctioned off for 25 cents a pound.

"When that great humanitarian, Franklin D. Roosevelt, came to Atlanta last year and spoke to a great multitude, there were governors from neighboring states present but Georgia's governor did not have the decency to shake his hand," Russell said.

The senator charged Talmadge with "cowardice" by "running away" from Griffin, where all candidates spoke last week, without answering questions.

Russell asked him about his platform.

TAKES FOR TO TASK

HOMERVILLE, Ga., Aug. 31.—(AP)

Senator Richard B. Russell Jr. in a campaign speech here today charged Governor Talmadge, his opponent, with failure "to show President Roosevelt common courtesy" when the President came to Atlanta's homecoming November.

The senator spoke from an improvised platform in front of the Mungrove hotel. Stewart M. Smith, chairman of the Clinch County Russell Club, was master of ceremonies. The senator was introduced to the crowd by Mrs. G. R. Dickerson, of Homer.

There were speakers from Clinch, Atkinson, Lanier, Lowndes and Ware counties preceding the senator. No other candidates for office spoke. Music was furnished by a band from Waycross.

WIFE OF AL SMITH JR. AWARDED ALIMONY

SYRACUSE, N. Y., Aug. 31.—(AP) Supreme Court Justice Abram Zoller, in a decision today, awarded Mrs. Bertha G. Smith, wife of Al Smith Jr., \$150 per month temporary alimony.

The justice also awarded Mrs. Smith \$500 counsel fees. He ruled the monthly alimony payments must be increased to \$250 per month after January 1, 1937, if trial of a separation suit brought by Mrs. Smith is not held before that date.

KILLED IN AUTO CRASH

GALAX, Va., Aug. 31.—(AP)—Vivian Farmer, 30, of Los Angeles, Cal., said to be a United States army aviator, was instantly killed last night at 11 o'clock on Brush mountain, Bland county, in an automobile accident. The car locked wheels and turned

Atlanta Naval Unit Rated Second In Country, Climbing From Third

St. Paul, Minn., Again Takes First Place in Ranking.

Atlanta naval reservists climbed a notch in their fight to regain first place position over other battalions of the country by taking second place for 1936, according to an announcement made yesterday by the naval reserve headquarters here.

Report of the winning of the second place among 30 battalions of the country was made by the Bureau of Navigation, located at St. Paul, Minn., took first place for the second consecutive year and the Connecticut battalion placed third.

Average Mark Increased.

The Atlanta battalion held first place position for four consecutive years, only last year dropping to third place and climbing into second position this year. Their final average mark increased this year to \$6.40 from \$6.19 in 1935.

The factors considered in making the award are inspection attendance, cruise attendance, general appearance at inspection, mobilization efficiency, general drills, classroom instruction, turnover, weekly drill attendance during the year.

In the standings of individual divisions for 1936 the two units comprising the Atlanta battalion took thirteenth and nineteenth places in a total of 148 divisions throughout the country.

Houston, Texas, was next in standing, followed in southern cities with fifty-first place.

Lieutenant H. F. Dobbs.

CHURCH LACKS \$9,000 IN JUNALUSKA FUND

HIGH POINT, N. C., Aug. 31.—(AP)

The campaign to "save Lake Junaluska," summer assembly grounds of the Methodist Episcopal Church, South, from foreclosure, was reported today \$9,000 short of its goal today by Dr. W. A. Lambeth, chairman of the drive committee.

Dr. Lambeth said \$96,000 had been raised through last night and was optimistic that the remainder would be obtained before the deadline at mid-night tomorrow.

Germany, which geographically lies between the two countries, has already announced an increase of her fighting men to more than 1,000,000 men by October 1.

POLAND'S STRONG MAN VIEWS FRENCH DEFENSE

France's Minister Reveals Secret Military Maneuvers to Pole Guest.

PARIS, Aug. 31.—(AP)—French defense Minister Edouard Rydz-Smigly today showed Poland's "strong man" what France's army would do if the country were attacked via the German frontier.

Rydz-Smigly took his guest, Inspector General Edward Rydz-Smigly, out for a first-hand view of secret French military maneuvers along the German frontier.

Demonstrating how much power France could loose against an invasion along that sector, Rydz-Smigly and French generals staged military moves for the benefit of the Pole and his entourage.

Whether Rydz-Smigly had been favorably impressed by today's sights was not disclosed tonight, but it was said he would continue studying French military tactics. Rydz-Smigly, who will turn diplomat and talk with Premier Leon Blum and other officials of the French government.

Hearing that Premier Mussolini, of Italy, had asserted that Italy's potential fighting strength was already 8,000,000 men, Rydz-Smigly assured the Polish visitor France was going ahead building up her own army.

"By the methodical growth which we will not cease to pursue," he said, "the army will remain the solid buckler of the fatherland."

Following an official luncheon, the two military leaders commenced a series of conferences believed to center around the binding of the two countries in economic and military pacts.

Germany, which geographically lies between the two countries, has already announced an increase of her fighting men to more than 1,000,000 men by October 1.

THE RETURN OF JOAN

BY JOSEPH McCORD

INSTALLMENT II.

"My outstanding job was with a Philadelphian insurance concern. I survived a lot of housecleanings and cuts. But they got to me. It must be that my talents run to figures, because I couldn't connect with anything else that lasted. I decided to drop down here for a while and think it over. I didn't have much time to make myself useful."

"Not letting it get you, are you?" "Of course not. What's the use?" McCune squinted thoughtfully at Joan's profile.

"And what happened to the man?" he wanted to know, casually.

"What man?"

"The one who makes you . . . de-tacled like?"

"They're both quite well, thank you."

"I see. You're going to hold out on me. But you'll weaken."

"I'm sure of it," Joan returned with an amused smile. "So I'll go . . . before I commit any more indiscretions. She rose to her feet with grace.

"What do you mean more?"

"Such as complimenting you on your powers of observation."

"We're even. Come for a swim with me . . . just a little one. Then I'll let you go home alone. Maybe . . ."

"All right, with the indifferent answer." A little one."

"John tugged on her cap and tucked her hair under its edge, working her sandals from her feet at the same time. McCune stared up at her admiringly, until she started for the water. Then he hurriedly divested himself of his own foot coverings and strode after her.

"Why doesn't she ever see any ships off this place?" he inquired, as he appropriated Joan's nearest hand and led her into the swirling spray of an incoming comber.

"Their course lies out too far. Let me know if you find anything funny, though."

"For a man to lose his family in a horror of that sort, then camp on the beach where he's never out of sight or sound of the ocean. You'd think he'd never want to look at the water again."

"I've had enough," Joan decided poutingly. "Stay in, if you like."

"What's the use?" Deeds cleared his nose and eyes of brine. "I was all set to rescue you . . . done everything but drag you under and hold you. But you were born with a caul."

"Don't remember."

Joan sat down in the sand to regain her breath and Deeds flung himself near by.

"That was swell," he declared.

"We're getting along famously with the friend stuff . . . aren't we?"

"Are we?"

"Can't you tell? Sure we are. I've decided that I won't let you go in alone, after all. I'm in a gossipping mood. I want to talk and ask questions. Will you help?"

"I'm through. The others all run true to form. If Salina weren't such an ebony butter-ball, I'd inquire into the matter."

"I've had enough," Joan decided poutingly. "Stay in, if you like."

"What's the use?" Deeds cleared his nose and eyes of brine. "I was all set to rescue you . . . done everything but drag you under and hold you. But you were born with a caul."

Joan sat down in the sand to regain her breath and Deeds flung himself near by.

"That was swell," he declared.

"We're getting along famously with the friend stuff . . . aren't we?"

"Are we?"

"Can't you tell? Sure we are. I've decided that I won't let you go in alone, after all. I'm in a gossipping mood. I want to talk and ask questions. Will you help?"

"I'm through. The others all run true to form. If Salina weren't such an ebony butter-ball, I'd inquire into the matter."

"I've had enough," Joan decided poutingly. "Stay in, if you like."

"What's the use?" Deeds cleared his nose and eyes of brine. "I was all set to rescue you . . . done everything but drag you under and hold you. But you were born with a caul."

"Don't remember."

Joan sat down in the sand to regain her breath and Deeds flung himself near by.

'WE HAVE RACE WON,' HARTSFIELD ASSERTS

Mayoralty Aspirant Talks to Audience at Sixth Ward School.

Only manipulation of the ballot boxes on election day by the present city government can keep him from being elected mayor of Atlanta tomorrow, William H. Hartsfield, mayoralty candidate, declared in a speech delivered last night at a political rally at Samuel Inman school in the sixth ward.

"We have this race won right now," Hartsfield said.

"The purity of the executive committee is clear," the candidate continued, "but the only way Mayor Key can win is by some kind of manipulation on election day."

"When you go to the polls to vote, if you have told your name to the recorder, he'll put it in," he announced to his listeners. "Insist on looking at the list. Look where your name ought to be, making sure no clerical mistake or oversight has been made."

Corruption Assailed.

The candidate reiterated his charges of corruption and inefficiency in the police department, blaming Detective Chief Poole and Chief of Detectives Sturdvant for lawlessness in Atlanta.

"If Sturdvant can manipulate council so as to keep his job after I'm elected," Hartsfield continued, "I shall prepare a recall petition for you to vote on his removal. If council won't do that, then I'll fix it legally, you people can put them out yourselves."

Regular Socialist supporters of the government received arms first. Communist adherents were supplied next, and lastly the Syndicalists.

Many well-informed observers believe a cabinet resignation will follow termination of the war, if the government is victorious.

A new cabinet would be charged with administering a moderate Socialism and preventing disorders among the more extreme parties with membership in the government, but to department heads, whether elected by the people or appointed.

Watch Ballot Count.

Hartsfield believes by the final speech of his campaign by urging the people to watch the election managers count the ballots after the polls were closed. He explained that the 200-foot

ballot box was too small to hold all the votes.

Indalecio Prieto, Socialist "man behind the scenes" throughout the war, is considered the most logical candidate for the premiership to succeed Jose Gil Perera.

Rio Likely Successor.

Should Azana be forced to resign, the Socialist educator Fernando de los Rios is advanced as a likely successor. He is recognized as one of the nation's foremost educators having held the portfolios of justice and education in the state since the republic was formed. He is moderate in political belief and a close friend of Prieto.

Some observers, however, pointed out that Azana's organization of the Associated Press was designed as a neighboring and profitable arrangement among newspapers in widely-separated cities, who sought some plan to interchange news.

Telephone in Infancy.

The Morse system of telegraph was in its infancy, but a wholesome future was assured. The wires were damaged with awe and amazement. It was a tricky thing. The wires were torn apart by mere breezes—but thoughtful persons could foresee the day when telegraph wires would be an established and dependable means of communication.

Newspapers were compelled to rely on the arrival of newspapers from other cities before someone in Atlanta could be told what had happened two or three or four days before in Charleston or Savannah or Washington.

This earthquake in Charleston was a tremendous thing, however, and it was only five or six hours later that The Atlanta Constitution learned of the convolution of the earth that wrecked buildings and claimed a heavy toll of dead, a number that could not be estimated at that early hour. It was a miracle that his first "flash" had been shot once the wires in such an incredibly brief time.

Editorial in Infancy.

"We were having a meeting in the editorial rooms of The Constitution that afternoon," said Mr. Branham. "We had a very long discussion for these discussions of the day's news. Captain Evan P. Howell was owner and editor of the paper; Henry W. Grady was managing editor. I was merely a reporter. I covered the capitol and the Kimball House, two buildings that were inseparable for years."

Captain Howell summoned Reporter

"We're going to Charleston at once," Branham was told.

Traveling a Task.

Getting to Charleston in those days was a task. A horse and buggy was out of the question, of course, for a man living up-to-date newspaper like The Constitution of 1886.

"Captain Howell chartered a train and away he went," said Mr. Branham yesterday as he recalled that dizzy ride that landed them in Augusta after a long, tiring, and somewhat aimless trip. Then, and again, they were sidetracked for other trains and forced to wait for orders but they reached Augusta in about 12

hours. An automobile could make it hours, in fact, or better.

They picked up some further reports of the earthquake at Augusta, enough to encourage them to telegraph back to Atlanta and urge Henry W. Grady to join them. He did.

It was 50 years ago today when Charleston was wrecked by an earthquake.

Alfred Iderson Branham was a reporter on the Atlanta Constitution and he described it yesterday as "the most interesting experience in my life."

That was back in the days before the Associated Press was organized as a neighboring and profitable arrangement among newspapers in widely-separated cities, who sought some plan to interchange news.

Germany Transfers Embassy from Madrid.

BERLIN, Aug. 31.—(AP)—The German embassy was being transferred to Alicante, about 250 miles away on the coast, because of insufficient protection, but warned the Socialist Spanish government still would be held liable for safety of the Nazi envoys.

The German embassy's safety "cannot be guaranteed by irregular militiamen, who in no wise were fitted to really guarantee safety," it was announced here.

Government victories were also asserted won in Badajoz province.

Tech, Georgia Eagerly Await First Football Drills Today

World's Greatest Hurdler Puts Football Above Track

Football practice starts today—But the best story—the very best story—is the one which is part of H. J. Stegeman's report on his trip with the American Olympic team—to be found elsewhere in this section.

Forrest Towns, who set a new record-to win the 110-meter hurdles in the Olympics and who since has smashed all records to run the distance in 13.7—an almost unbelievable record—had to be MADE to take a trip through Norway, Denmark, Sweden, London and Paris.

Had to be MADE to go—because he wanted to come back to Athens and be ready for football practice today.

Now, the average lad who has won an Olympic champion ship and shattered all records for his event, would be very careful of those legs. He'd treat them gently.

He'd be leaping into any football scrimmages or tackling some big fullback, or diving into some heavy interference.

His running career has just started. Yet he's pining to get back there and play football.

"I had to insist, even order him, to make the trip," said Stegeman. "It was too much of an opportunity for a young man to miss. He was all for coming back here to practice."

That, as far as I am concerned, is the story of the day.

What other champion—with the laurel wreath still on his head—would be willing to pass up a grand tour of the Scandinavian countries—a trip to London and Paris—for football practice?

NOT SO STRANGE, AT THAT.

And still, it's not so strange, at that.

Not if you know Forrest Towns.

There is a story which will bear repeating. It has to do with last season.

Towns was out for football and had been hurt. Harry Mehre knew Towns wanted, more than anything else, to make the Olympic team this past spring. It meant some late fall and winter competitions.

So Mehre told Towns to quit, get well of his hurt and concentrate on track.

A little later, just before the Auburn game, Mehre had other ends hurt. He was in a bad way.

One afternoon Towns showed up for practice.

"If it's all right, coach," he said, "I'll help out."

And that day at Columbus against Auburn he was the best player Georgia had.

The first thought is, of course, that Towns should be refused a chance to play football. He's one of the great track athletes of the world. And he has all his track future ahead of him.

Yet, one second thought, they are his own legs. And if he wants to play football, then he should be permitted to play.

But his teacher, Weems Baskin, will spend many a horrible afternoon—wincing each time Towns goes into a play and hoping for the best.

You may raise your hat to this Towns boys—he's got it.

LO, THE POOR COACH!

How about one of those composite pictures of the football coach?

Their jobs begin today.

There are a few exceptions, but this is the usual picture of the average football coach.

He is a college graduate. He is married and has a kid or two. Usually he is paying for a small home. Or has one bought.

He is a peculiar cuss in that he develops a real loyalty for the school at which he coaches even though he attended some other form of learning.

His blood circulates like that of his fellow man. When he goes home he looks forward to seeing the Little Woman and the kids.

He draws a good salary—not a big one, as big salaries go. He has spent, has this composite coach, from five to seven years at his job. He has intelligence and good manners and can talk about current events and the movies and he has read a few books.

Had he gone into business and given it all the years and headache and work given to football, he would at least be making as much as football pays. He would be fairly secure and not subject to the danger of losing a job because of a losing football team.

But, having spent from five to seven years in football, he more or less has to keep on with it. It's his game. He likes it. He puts all he has in it.

And now and then, when he has a bad year and hears all the alumni grousing about a new coach, he wonders just why he has spent a lot of years and loyalty and work in a profession which pays off in such goods.

He dreams about some other "safe" job.

But I don't know. There is something about it—they have to be fired out of it. There's something about it—

WARM-UPS FOR ATHLETES.

Just the other day Diz Dean said—

That this business of a pitcher warming up his throwing arm by 30 minutes of pitching before each game was very foolish indeed and that he, Diz Dean, had quit it.

So I asked the Cracker pitchers and Eddie Moore, the manager.

They disagree. The Diz is the Diz, they think. And there are exceptions to all rules. The average athlete needs to warm up before starting his daily stint.

"They even warm up airplane motors," said Eddie Moore, "before they start them on the job of lifting the plane. And the athlete must have his warm-up."

Football begins today. So I asked Marse Alex, the Man at the Flats.

"A warm-up has a definite purpose," he said. "It speeds up the circulation to meet the demands of the exercise. And it warms and stretches the muscles. This is important, because if an athlete started running or shoving without a warm-up he'd be pretty sure to 'pull' a muscle or strain one."

Diz Dean is Diz Dean. And that seems to be the answer to that.

He can win without warming up. But the other lads will have to get those muscles heated.

BULLDOGS PLAN TO WORK TWICE DAILY AT FIRST

Summer Routine Adds Weight to Several Members of Mehre Squad.

ATHENS, Ga., Aug. 31.—A broad, muscular troupe that bears the University of Georgia hopes for football glory this fall filtered into Athens tonight prepared for Coach Harry Mehre's opening sessions on the morrow.

Sauntering around town, recounting funnier occurrences of the summer, tiredly arrived. Monday night, ready as a sure sign that the grid season was nearing. They found Trainer Clarence W. Jones sniffing with his annual hay fever malady.

Two workouts will be held daily until school opens. A lecture may be thrown in for good measure. The morning routine will consist largely of signal running. Games will be pressed into service for the first several days and probably for a longer time, if the heat persists.

GOOD CONDITION.

For the most part, the boys brought tales of a summer well spent. All were apparently in good condition, with a few exceptions had added weight. To the man, the Bulldogs were eager to be back, but not yet.

Coach Harry Mehre announced that the early morning practices will begin at 9:30 o'clock. The "skullduggery" will follow at 11:30, with the afternoon grind coming at 4:30.

The Bulldog mentors spent the day giving their golf games the last once over.

Andy Rodenberry, Macon, tipping the beams at 185, reported spending a large portion of the summer at Ted Twomey's camp in Canada.

WORKING BOYS.

Walter Troutman, Clayton Wilhite and several other boys worked with a power company out of Atlanta. Wallace Miller, quarterback candidate, worked in a mill at Macon. Ned Barber, sophomore end candidate, was counselor at a camp in Chimney Rock, N.C.

Maurice Green, approaching 200 pounds, spent his time in summer school here making ready scholastically. Paul Causey was in Athens all summer, working at a lumber company. John W. (Stooge) Davis rolled into town weighing approximately 230 pounds, he said. This is a gain of about ten.

Frank Johnson

Relieves Baskin.

ATHENS, Ga., Aug. 31.—Coach Harry Mehre announced that Frank Johnson, All-Southeastern Georgia Bulldog guard last season, will relieve Coach Webb Baskin as "Red Devil" until he arrives from his coach "until Coach Baskin recuperates."

Coach Baskin has been recovering from the effects of a sunstroke which he suffered in New York at the final Olympic tryouts. The Bulldog head coach stated he expected Baskin to be back in time for the fall.

He believes that Johnson will be permanently added to the Georgia staff was strengthened by the announcement. It is reliably reported that he will fit the shoes left vacant by Dave (Butch) McCullough, 1933 assistant freshman tutor.

He has served as assistant manager of a local theater this summer.

It was the day before football practice and all through the Flats there was a restless stir of football players. Scrappy Edwards, left, and Glenn Cushing, right, are shown inspecting the new equipment with Backfield Coach Bobby Dodd.

Men's Night Crowd of 19,088 Sees Crackers Win Opener, 5-1

Town's Is Anxious To Play Football

H. J. Stegeman, Back From Olympics, Says Towns, Owens Thrilled Most.

By Ralph McGill.

Forrest Towns, the world's greatest hurdler, definitely will risk his track future by playing football.

The reason—football is the greatest game of all to him.

Herman J. Stegeman, director of athletics at the University of Georgia, has just returned from the Olympic games at Berlin.

"The greatest competitive sights the Olympics had for me," he said, "were those of Towns running the 110-meter hurdles in 14.1 in the semi-finals and then winning the finals in 14.2. And seeing Jesse Owens win the broad jump after the German had tied him."

"That was, as far as the German crowds were concerned, the peak of the games. And then Owens met that unexpected challenge by setting a new record."

CAME THROUGH.

"Towns," he continued, "had run the hurdles in 14.1 several times before the Olympics. The big question was whether he could do it in Olympic competition. The fact that he did was a great source of satisfaction."

Stegeman, who also is head track coach at Georgia, was not present when Towns made his amazing record when he ran the 110-meter hurdles at Oslo, Norway.

"I had a difficult time persuading Towns to take the trip with the A. A. U. team," said Stegeman. "He wanted to come home and be here for the first football practice. But I felt that he would be better off in Germany. He was to travel to London, Norway, Denmark and Paris. I insisted he go ahead despite football. He will be back about September 20, and will immediately turn out for the team. Football is the game he likes best."

OWENS TIRED.

Director Stegeman thought Jesse Owens was probably too tired of all the traveling to make the world trip and didn't feel up to it. But Stegeman thought there was nothing left to do but suspend him for failure to make the trip.

Reports he had from members of the committee also convinced him there was nothing else to do but suspend Eleanor Holm Jarrett, swimmer, for three days.

Told that the majority of opinion in America was that while the suspensions may have been justified there was objection to the crude manner in which they were announced and handled, Stegeman said this was unfortunate and that the officials seemed to have been unlucky in their handling of it.

GREAT SHOW.

The games were a great show, according to the Georgia track coach and director.

"Germany handled them very efficiently," he said. "There was a magnificent Olympic village constructed which had all the necessary comforts and facilities. Everything went smoothly. There was a great system for announcing the results and for taking care with extra stadia, of all sports on the program. It was done with all the expensiveness of the traditional German efficiency for detail," he said.

Asked about reports that some athletes had charged there were high-hatted and "herded" below decks while officials occupied choice staterooms and did not associate with the athletes, Stegeman said he believed the reports exaggerated.

He knew the Olympic village was all right, he said. "And in any crowd there always are some not satisfied with their accommodations and food."

Mrs. Stegeman accompanied her husband to Germany. They had a great time and enjoyed it all, thrillng most of all at the triumph of a University of Georgia boy, Forrest Towns, in his Olympic test.

Down the Alley

The City Duckpin League will hold its first meeting of the downtown duckpin alleys at 8 o'clock this evening and all bowlers interested in rolling in this league during the season will be invited to attend. All are urged to attend the meeting.

Included among those who are invited to attend the meeting and bowl in the league this year are: T. G. Allen, R. Maples, G. L. Hussey, Paul Becht, D. P. Bowden, D. Black, M. D. Barnett, R. P. (W. H.) Barnes, Frank Brown, R. S. Black, W. M. Carson, Alie Cline, Ralph Cutler, Harry Crowe, Joe Drew, Carl Deneke, Eddie Fornell, Eddie Gandy, Eddie Gann, Ed Gleason, F. E. Buckley, Marshall Hohenstein, Fred Hamel, C. H. Harmon, C. L. Hartig, W. James, Lindy James, Alvin Johnson, C. W. Jones, W. K. Jones, W. F. Lawson, O. J. McCall, Alan Liebler, Joe Mangum, Bill McDonald, Andy McLean, G. W. McRae, Eddie McRae, Eddie Park, Eddie Poindexter, Charles Ross, Joe Simmons, A. J. Sessing, Bill Sheridan, Jake Stroh, A. L. Stokes, Ralph Sturz, L. T. Tidwell, George Tyler, Chris Conner, Carlos Tidwell and others. Players are urged to attend the meeting and help in the organization of the new league and to discuss proposed changes in the eligibility of play-

ers.

The Junior Chamber of Commerce bowling league held its initial meeting Monday afternoon and elected John Parks to serve as president. The league will meet at 8 p.m. each evening at the Atlanta Civic Auditorium.

Parks will be assisted by Ray Brown, who will serve in the capacity of secretary-general.

The league is slated to open scheduled competition on Thursday, September 24, with an eight-game loop.

DOAL PLEASED.

Coach Doral seemed very much pleased with the team's two weeks' training at Lake Burton. It was the second year the Purples had tried the idea. Doral points out that there is more speed, more limberness and less aching muscles. So why not get some of them as soon as possible. The boys who came back from camp, as said before, were just about ready for rough work to start. But the others who loafed aren't in such fine condition. Doral thinks the camp had a great time and had a great time.

The Purple first game is with Commercial on September 17. They have a tough schedule, and it will take a super team to keep up the Boys' High record of previous years.

MATCH POSTPONED.

CLEVELAND, Aug. 31.—(UPI)—A wet field prevented the Fort Myers Va. team and the Huissache team of Houston, Texas, today from playing their national 12-goal polo championship match. Their match is scheduled to be played tomorrow.

LINDSEY HURLS SPLENDID GAME FOR TENTH WIN

Alex Hooks Leads Attack; Ladies' Night Tonight at Poncey.

By Jack Troy.

Playing before a magnificent men's night crowd of 19,088, the champion Crackers last night defeated Little Rock's Travelers, 5 to 1, in the opening game of the final series of the year at home.

Ponc de Leon park has seen only one crowd larger than the one of last night, which set the record night crowd of last year, which attracted 20,296 paying customers.

Last night's crowd numbered 1,323 paying customers. They were all ladies. For this was men's night at Ponc de Leon park and 17,765 masculine rooters passed through the gates free of charge, except for the federal tax.

A GREAT IDEA.

The men's night idea, originated by Miss Maude Stenhouse, a trained nurse, surpassed the fondest expectations of all concerned.

The great crowd, which overflowed grandstands, bleachers and the sides and around the outfield, was a happy, good-natured throng.

And so men's night very likely will become an annual affair at the home of the Crackers.

Atlanta's championship drum and bugle corps, of American Legion Post No. 1, brilliantly dressed in gold bunting satin shirts, white pants and blue bunting satin caps, paraded before the game.

The game itself was one of the best of the year, featuring brilliant pitching by the veteran Jim Lindsey, who pitched shutout baseball until the ninth, spectacular fielding and timely hitting by his mates.

ROGERS NICKED.

The champion Crackers nicked Lefty Lee Rogers, former University of Alabama hurler, for 11 hits. Alex Hooks led the attack with a double and two singles in four times up.

Lipscomb, Chatham and Galvin secured two hits apiece.

Lindsey, as usual, was brilliant. He sides his own team to make his two sensational plays at first base. He took two throws from Hooks running like a frightened gazelle. And each time he speared them with gloved hand stretched high above his head.

It was Uncle Jim's 10th victory of the season. And he well earned it.

The Crackers won the game in the third, sixth and eighth.

PITCHING, FIELDING.

Lindsey's pitching and spectacular fielding which started with a first-inning double play, Hill to Hooks, held the Travelers right until the eighth. Then he sent them home in the ninth on a single and triple plays.

The crowd then called for a ball game. And it was forthcoming—one of the best games ever at Poncey de Leon all season.

SCATTERS HITS.

Lindsey allowed 10 hits altogether.

Miss Stenhouse pitched the first ball and was asked to repeat for the benefit of the photographer. Both pitches were wide.

The crowd then called for a ball game. And it was forthcoming—one of the best games ever at Poncey de Leon all season.

PERKINSON BACK.

Captain Louis Perkinson is back from 1935 to play tackle. Other tackle candidates are Bob Brandles, Dick McCauley, Jim Brown, all holdovers from last year's reserves, and Howard Hayes.

The guard situation isn't so bright, although there is a great number out.

Three men back from last year's squad—Haslem Webb, Brooks Sheldon, Bill Hempstead—and Bill Loomis, another guard, will battle for the right to play center.

PERKINSON BACK.

Captain Louis Perkinson is back from 1935 to play tackle. Other tackle candidates are Bob Brandles, Dick McCauley, Jim Brown, all holdovers from last year's reserves, and Howard Hayes.

The guard situation isn't so bright, although there is a great number out.

Three men back from last year's squad—Haslem Webb, Brooks Sheldon, Bill Hempstead—and Bill Loomis, another guard, will battle for the right to play center.

TRAVELERS GET ONE.

Lindsey pitched shutout ball until the ninth. Head singled and there were two away when Griffith lined to right center. Maitho and Brown got the ball and sent it to the right together.

The Travelers and Crackers resume the series tonight. It's ladies' night. Al Williams will pitch if it develops that his arm is all right. He has been troubled with a bit of stiffness in his arm for the past couple of days. If Williams doesn't pitch, Bud Thomas will. Poindexter is Doc Prothro's pitching choice.

SCORE IN SECOND.

Those Crackers went to work on Rogers in the second inning. Hutchison came up and also doubled into the crowd, scoring. Head singled, sending Hutchison to third. Hill singled and Galvin hit a long fly to center. Chatham scored after the catch.

Hill doubled in the eighth and Galvin hit a double right behind him to give the Crackers their fifth and final point.

PLenty OF RESERVES.

And Coach Keith isn't lacking in reserves. To support McDuffie at quarterback he has a great quartet of fast men. Ray Miller, who also shows his speed on the cinders; Carling Dinkley, Truck Thawly and Frenchy Tinsley. They can all carry the mail, so to speak.

At the halfbacks several have shown promise. Dan Greer, Charles Baird, John Roberts, Charlie Crouch, Jack Elvold, all are good backs. And in Jake Bromberg Keith thinks he has a find. He says the youngster can pass, punt and run. How, when and if he'll return we'll have to see.

The Campbell twins and Harry Barberfield will make pretty nice reserves for the fullback spot.

Jack Bond, line crusher for the Purples last year, may return for the 1936 campaign. If he does Keith will have two great fullbacks, Gores and Bond.

DOAL PLEASED.

Coach Doral seemed very much pleased with the team's two weeks' training at Lake Burton. It was the second year the Purples had tried the idea. Doral points out that there is more speed, more limberness and less aching muscles. So why not get some of them as soon as possible. The boys who came back from camp, as said before, were just about ready for rough work to start. But the others who loafed aren't in such fine condition. Doral thinks the camp had a great time and had a great time.

The Purple first game is with Commercial on September 17. They have a tough schedule, and it will take a super team to keep up the Boys' High record of previous years.

MATCH POSTPONED.

CLEVELAND, Aug. 31.—(UPI)—A wet field prevented the Fort Myers Va. team and the Huissache team of Houston, Texas, today from playing their national 12-goal polo championship match. Their match is scheduled to be played tomorrow.

TRAINING FOR FIGHT.

MEMPHIS, Tenn., Aug. 31.—(UPI)—It's bad news today for Mississippi State. "Tol" is dead. Prolly 11, to give his full name, was the red brindle bulldog that served as mascot for the Maroon football team it's invasion of the east last year.

MASCOT DEAD.

PHILADELPHIA, Aug. 31.—(UPI)—Al Ettore, Philadelphia heavyweight, will start training at Clementon Lake Park, N. J., Thursday for his bout with Joe Louis. Detroit Brown Bomber, here September 22, Promoter Taylor and Gunnis announced tonight.

Hurls First Ball at Men's Night

Miss Stenhouse, who conceived the idea of a free night for men, pitched the first ball last night as a crowd of 19,088, composed of nearly 18,000 men, turned out to see Crackers beat the Travelers in the first game of the series, 5-1.

Miss Stenhouse let loose a perfect strike. Her suggestion may have started something. Another men's night will be offered here next year, and it is probable other clubs will inaugurate the policy. Staff photo by Turner Hiers.

Men Like Bargain Sales Big Crowd Here Proves

President Mann Promises Another "Free Night" Next Year; Ladies Like Novelty.

By Ralph McGill.

So, men don't go to bargain sales?

Well, you should have been out to the extra special sale for men only which Mr. Earl Mann put on at the baseball park last evening.

Man, the men were there. The ball park was overflowing 45 minutes before game time. The first customers started coming to the sale at 6 p.m. And they kept coming.

At least five to thousand people left without trying to get in. It was a most amazing outpouring of masculinity—with quite a few of the girl friends paying their own way.

Most men took advantage of this opportunity to be the guests of the Cracker baseball club.

The Cracker sales were a success, though.

Miss Stenhouse pitched the first ball and was asked to repeat for the benefit of the photographer. Both pitches were wide.

The crowd then called for a ball game.

And it was forthcoming—one of the best games ever at Poncey de Leon all season.

The Crackers won the game in the third, sixth and eighth.

It was Uncle Jim's 10th victory of the season. And he well earned it.

FOOD TRUCKER STRIKE AVERTED IN NEW YORK

**LaGuardia Gains Respite,
But New Contract Is Yet
To Be Signed.**

NEW YORK, Aug. 31.—(P)—A strike of 10,000 truckmen, which both sides admit would seriously imperil New York city's food supply, appeared tonight to be temporarily averted after vigorous intervention by Mayor Fiorello La Guardia.

The two-day agreement expires tonight at midnight, with wage scale committee of the International Brotherhood of Teamsters and Chauffeurs and of the Merchant Truckmen's Bureau unable to come to terms. Both sides, however, predicted further negotiations for a new contract.

The strike of 12,000 painters, decorators and paperhangers, whose services are normally at great demand during September, here, continued by union officials claimed individual contracts have been signed with 100 employers who predicted many more similar agreements.

The signs agreed to a \$9 seven-day hour and the right of the union's district council to supply 50 per cent of men hired on jobs.

A knit good workers' strike continued with a meeting scheduled for Thursday to decide whether to hold out only against the individual employers who have decided to sign an agreement.

Another contract expiring at midnight tonight raised the threat of a strike of paper box makers. A. N. Weinberg, union manager, announced a meeting some night for a vote and said the workers are determined

Georgia Cotton by Truckload Is Contributed to Further Success of Senator Russell's Re-election Campaign

One of the two truckloads of cotton bales which were donated to Senator Richard B. Russell Jr. for his campaign for re-election at the big Warm Springs Democratic rally is shown above. The bales, donated by farmers of numerous Georgia counties, bore inscriptions praising Senator Russell and his backing of the New Deal. Democrats from all parts of the state attended the rally at Roosevelt's "second home."

to strike rather than accept a proposed 10 per cent wage decrease and an increased work-week from 40 to 45 hours.

GIRL, 12, GREETED AS VALOR QUEEN

**Youngest U. S. Heroine Is
Cheered for Saving Lives
of 2 Playmates.**

CINCINNATI, Aug. 31.—(P)—Men who braved gunfire in wars, who bore scars of battle rose in a group today to cheer the youngest of America's heroines—Clara Kathryn Van Horne, not yet 12 years old.

They greeted her as queen of the convention of the Legion of Valor, an organization of 1,000 men and women who had been decorated by the United States government for unusual gallantry.

Dressed in a blue silk dress and with a pink bow in her blonde hair, Kathryn, a fastidious, crippled National Committee Relief Robart, of Boston, lifted her upon a table. She smiled happily, though a bit

bewilderedly, as the 200 delegates and visitors rose to cheer her.

She told hesitatingly of the wintry day last February when, seeing two younger playmates speeding down an icy hill toward a railroad track on which a train approached, she hurled her small body in front of the boys. Her small legs were thrown into a snowbank while the sled, racing out of control, was crushed beneath the train.

On September 12—her twelfth birthday—she will receive from President Roosevelt the gold medal awarded each year to a child hero.

She'd never been to the city before. Kathryn said she had "had the greatest experience in my life." A seventh grade pupil, Kathryn is one of six children of a workingman, not yet 12 years old.

The speakers—farmers, farmers' wives and businessmen—declared the "proof of the pudding is in the eating" and asserted they had tasted generous help, without which their lives might have been lives of tragedy.

Although the speakers were invited to tell the Warm Springs gathering of the benefits of the old-age pension laws, S. T. Whelless and Charles McElhaney, aged farmers of Lee county, Alabama, told of receiving monthly pension checks from the government, and declared that each month the federal government, in co-operation with sympathetic state administration, made it possible for them to maintain an existence.

Pension Recipients.

The testimony of the two Alabama pensioners received an ovation in view of the fact that Senator Russell sponsored old-age pensions in the senate while Governor Talmadge, his opponent in the present senate race, vetoed the measure which would have given the people of Georgia an opportunity to vote on whether the pension would be available to the aged and infirm of the state.

George H. Lowerre, Sr., of Atlanta, testified he and his wife, also 81, had their home saved from foreclosure by the Home Owners' Loan Corporation.

In rapid sequence, Enrollee Cromarie, of Boston, Ga., told from personal experience how he and thousands of other youths of the state had been given a chance to work and help their destitute families through the Civilian Conservation Corps and Dan Brown, of Carrollton, an orphan youth, described the aid given him and others by the educational service of the National Youth Administration.

Two Women Testify.

Two Georgia women added their tale to the accomplishments of the present Democratic administration. Mrs. W. L. Staples, of Bowdon, declared the dreams of American farmwives had come true through the advent of economic recovery and improved living conditions in the farm life. Miss Gladys Barnes, of Jasper, recounted her experience in having her life savings restored by the agency of federal deposit insurance after her local bank had closed its doors.

Judge P. T. McCutcheon, of Franklin, Hard county, related benefits to small towns and communities and to the small businessman through improvement in living conditions and increased earnings.

Congressman E. M. Owens, of the fourth Georgia district, summed up the four Georgia districts, saying they now are the delight of the common man under past Republican administrations. He played the "foley" of the inconsistency and the insincerity of present-day critics of the Democratic administration.

Huge Crowd Present.

The crowd, which converged on Warm Springs in droves from all parts of the state, met just outside the town in a large grove in which President Roosevelt held his birthday party in 1930. The crowd was variously estimated at from 15,000 to 20,000.

At actual count, it was reported, 2,026 cars and trucks decorated with Russell and Roosevelt stickers and banners poured into the town singly and in motorcades.

Among them were two large trucks carrying 20 bales of cotton donated to the local cottonseed companies in surrounding counties. Two other single bales were contributed to the senator's campaign for re-election.

One of the bales, a gift of Coweta

Another truckload of cotton bales contributed to the Russell campaign for re-election, and presented to the senator when he addressed the Warm Springs rally Saturday. Several individual bales also were donated to the campaign fund. It was said enough cotton was given the senator for his campaign to make summer clothes for all the 15,000 or 20,000 people present. The rally was held just outside of town.

county farmers, bore the inscription:

"Russia is blue,
Talmadge is blue,
Coweta is you,
And this bale too."

Another bale bore the cryptic remark, "From the bums and loafers of the Chipley CCC camp."

It was said the bale was being grown in 1937, the year of Senator Russell's birth, and was donated to his campaign by a grower in the Shakeras district of Fayette county.

ENEMIES ARE CITED

**Boykin Prosecution Has
Drawn Fire, Aid Says.**

Solicitor General John A. Boykin testified he and his wife, also 81, had their home saved from foreclosure by the Home Owners' Loan Corporation.

"John A. Boykin should be loved by the good people of Fulton county because of these enemies he has made," Andrews said. "He has given his full energies to prosecution of the criminal element in order that the people might be safe and secure in their persons and property."

"He has given his enemies of fake damage claim racketeers, who were exacting approximately \$1,100,000 a year from the people of this county. He prosecuted those who were making profits by selling vulgar and obscene literature to school children to aid in these and other prosecutions he made enemies."

"This relentless type of prosecution has made Atlanta and Fulton county a safer place in which to live and this is the record of faithful service by John A. Boykin."

COOLIDGE AID DIES

**William F. Whiting Was
Secretary of Commerce.**

HOLYOKE, Mass., Aug. 31.—(P)—William F. Whiting, who served as secretary of commerce in the Coolidge administration, died at his home here early today after long illness. He was 72.

For many years a friend of the late President Coolidge, he was one of the small group which worked for his nomination as vice president at the 1920 Republican national convention. He was prominent as a paper manufacturer.

Simplicity will mark the funeral service in the home at 1:30 P.M. Wednesday, followed by services in the Second Congregational church. Burial will be in the family mausoleum at Forestdale cemetery.

The widow: a daughter, Mrs. Ruth Chapin, of Springfield; and three sons, William, Edward, and Fairfield Whiting, survive.

TWO TEXAS FUGITIVES CAPTURED AT BANK

ATLANTA, Texas, Aug. 31.—(P)—Two fugitive Arkansas criminals—Charles Chapman and O. H. Lindsey—were captured here today after an exchange of shots precipitated by an unsuccessful attempt to rob the First National Bank of Atlanta. Chapman was shot in the right shoulder and taken to a hospital. Lindsey was shot in the left arm.

A third man, possibly Buddy Sader, who escaped with Lindsey and Chapman from an Arkansas prison last Tuesday, escaped in an automobile.

The change is planned far around the new year.

Commandatore Camillo Serafini, governor of the Vatican since 1929, will be replaced by Cardinal Caccia Dominicino, the prelates said. The cardinal, former papal major domo, is well known by all American bishops because he has enlarged their audience with the pope.

The projected transformation would conform to the history of the Vatican since before 1870. The governor of the papal state always was a prelate.

AIRPLANE PASSENGERS SHOW BIG INCREASE

WASHINGTON, Aug. 31.—(P)—The Bureau of Air Commerce said today scheduled airlines broke all previous passenger carrying records during July.

A total of 110,690 persons were transported during the month, the bureau said, an increase of 13,273 over June and 25,444 over the same month a year ago.

Among them were two large trucks carrying 20 bales of cotton donated to the local cottonseed companies in surrounding counties. Two other single bales were contributed to the senator's campaign for re-election.

One of the bales, a gift of Coweta

county farmers, bore the inscription:

"Russia is blue,
Talmadge is blue,
Coweta is you,
And this bale too."

Another bale bore the cryptic remark, "From the bums and loafers of the Chipley CCC camp."

It was said the bale was being grown in 1937, the year of Senator Russell's birth, and was donated to his campaign by a grower in the Shakeras district of Fayette county.

PIUS MAY RESHUFFLE VATICAN GOVERNMENT

CASTEL GANDOLFO, Italy, Aug. 31.—(P)—Transformation of the civil administration of Vatican City, to give it a religious character, a secular government is being planned by Pope Pius XI, prelates said today.

The change is planned far around the new year.

Commandatore Camillo Serafini, governor of the Vatican since 1929, will be replaced by Cardinal Caccia Dominicino, the prelates said. The cardinal, former papal major domo, is well known by all American bishops because he has enlarged their audience with the pope.

The projected transformation would conform to the history of the Vatican since before 1870. The governor of the papal state always was a prelate.

'Moving Day' Makes Changes In Addresses of Well-Known People

By Sally Forth.

IT'S Atlanta's move today in the great game of living as the first of September means the moving of many citizens into new abodes, and the changing of the old for the new addresses. Even with all the ensuing confusion that seems to accompany the transferring of laces and penates to another home, there is a great thrill involved in moving into a new neighborhood. To some, of course, it means the realization of a dream to move into a home of their own and as someone once said, "to really live." Dr. and Mrs. Hoke will be welcome into the citizen ranks again after an absence of five years at Warm Springs. They will reside at 316 Argonne drive, and their return to Atlanta is a matter of sincere delight to relatives and hosts of friends. During the period they lived at Warm Springs, Dr. and Mrs. Hoke occupied the "little White House," the Georgia home of President Roosevelt.

Speaking of "return moves," Atlanta society welcomes once more in its midst the presence of Mr. and Mrs. Charles Cox and children, who have established their abode on Peachtree near Brookwood after a residence of several years at Stone Mountain. This is also true of Mr. and Mrs. Paul Brown, who since their marriage last fall have resided in Cincinnati, Ohio, but hereafter will make their home in Atlanta. Mrs. Brown is the former Frances Latimer.

Mr. and Mrs. Gus Ashcraft and their young daughter, Marie Earle, move today into their new home on Fifteenth street. This is also true of Mr. and Mrs. Charles D. Tuller, whose new address will be on Eighth street.

Mr. and Mrs. De Sales Harrison's new home is on Brighton road and, although they will not move until the 15th, Virginia Pogram Harrison is busily engaged in packing her laces and penates. With her husband and children she is visiting her parents, Mr. and Mrs. Robert Pogram, on Valley road, until "moving day."

Speaking of Brighton road, recalls to mind that Mr. and Mrs. Henry Hirsch have moved from their home on the aforesaid street to their new residence on Habersham road. This road has also been selected as the home site of Mr. and Mrs. Rufus King, who have already moved in. In this neighborhood, on Vernon road, to be exact, Mr. and Mrs. William Healey's new home is fast being completed as they expect to move in before many weeks have passed. Dr. and Mrs. William Minnich have taken possession of their home on this same road, although a bit farther north of the Healey residence.

Continuing farther north, the huge moving vans have already deposited the furnishings of Mr. and Mrs. J. W. Goldsmith Jr. at their new home on Valley road, and the occupants are adding the finishing touches. They have with them for a time their son and daughter, Mr. and Mrs. James Campbell, and little Mary Anne Campbell, not yet a month old. The new address of Dr. and Mrs. William H. Kiser Jr., and their trio of interesting little daughters is on Peachtree circle. It is the home they purchased recently from Dr. and Mrs. Michael Hoke, and is one of the most attractive residences in that section of the city.

Back in town, so to speak, Sally hears that Mr. and Mrs. L. McD. Massey, who formerly resided on Wesley road, are now in an apartment at Peachtree and Eleventh street, which also houses in the same building Mrs. Julia Rosser Eby and her family. Jim and Helen Lowndes Whiteman are popular members of the younger married set who are beginning housekeeping in a new home. They have a small white house, effectively offset with blue blinds, and situated on Nachoochee drive.

Atlanta boasts for the first

Georgia Baptist W. M. U. Meeting.

Executive board of the Baptist Woman's Missionary Union of Georgia meets at 1 o'clock at the First Baptist church. Plans will be perfected for the annual divisional institutes and other important matters will be discussed. Mrs. Ben S. Thompson, of Madison, will preside.

deared her to many Atlantans as well as Savannahians.

YOUTH is surely reigning in the Felix de Golian household this week. Young Felix Jr., who is enrolled at the United States Naval Academy, arrived Sunday, accompanied by a trio of his classmates, including Frank Blasdel, Greer Duncan and Duncan Elliott, to spend this week with his parents at their Howell Mill road residence. The Atlanta visit is the climax of an interesting summer spent by the future naval officers who returned recently from a two months' cruise to the North Cape aboard the U. S. S. Wyoming.

The army is represented this week in the de Golian home by lovely Marion Nulsen, daughter of Colonel and Mrs. C. K. Nulsen, who came here recently for residence at Fort McPherson. Marion and Martha are the closest of friends and the latter invited the young army belle to spend this week with her and assist in entertaining the young midshipmen. Like her hostess, Marion, too, is an expert young horsewoman. With Felix and his friends, the girls will spend many hours riding over the trails surrounding the de Golian place.

Marion, who, by the way, was born in China during the time her father was stationed there, is of the brunet type of beauty. She graduated last June from Holton Arms in the national capital. She will attend Sweetbriar in Virginia this winter. Sally hears that Marion may make her formal bow to Atlanta society this winter when she returns to spend the Christmas holidays with her parents.

JACQUELYN GORDY, whose marriage to Dr. Darden Eure takes place at an early date, was complimented Saturday at a most original and attractive luncheon by her lifelong friend, Gladys Bridges. A feature of the party was the huge wedding cake containing all the symbols so dear to the heart of the bride-to-be. As a rule, someone already married gets the thimble and someone practically rolling in riches the dime, which indicates great wealth.

But this time the correct thing actually happened and the charming bride-to-be drew the wedding ring, signifying an approaching wedding. Each guest wrote a poem for the bride-elect making a wish for her future happiness, and those present were greatly amused at the results.

Visitors Honored.

THE arrival today of Mrs. Charles Clapp and her attractive daughter, Josephine, from Savannah, Ga., to visit Mrs. Clapp's father, J. R. Mobley, brings to mind Josephine's excellent record as an equestrienne. The young Savannahian has just returned from a camp near Brevard, N. C., where she made quite a showing in the recent horse show staged there under the direction of Mrs. A. S. Wheeler.

Josephine was not only awarded the blue ribbon in the horsemanship class and the red ribbon in the pair class, but she took her mount through the jumping exhibition with the courage and skill of a veteran horsewoman. She is a charming young girl and her appealing personality has en-

NANCY PAGE

Quilting Pattern Popular on Both Sides of Border.

By FLORENCE La GANKE.

Quilting patterns are not too easy to find, good quilting designs, that is. I selected this one which is the maple leaf because I had so many nice quilt patterns from the readers in Canada. I will try to repay them and thought they might like to have their national maple leaf made into a pattern for quilting.

This design is planned for a 12-inch block. There are the four maple leaves radiating from the center of the square. A set of two circles holds the center together.

"I suggest," said Nancy to the members of her quilt club, "that you send for the pattern paper. When you get it trace it onto tough stencil paper or onto lightweight cardboard. Then put this piece of paper or cardboard onto a cutting board and with a sharp pen knife blade cut narrow slits at intervals along the pattern. Do not cut along the entire line of the pattern, will fall apart. Leave spaces, about one half inch, ever so often, that are not cut out. These connecting bars or bridges hold the pattern onto the cardbord. After you have the stencil cut, lay it on a quilt top and with a colored lead pencil sharpened to a flat point make light lines in the slits. In quilting you will carry the stitches right along if there were no breaks in the design as traced."

"I like to use a colored lead pencil rather than a black lead pencil because the colored lead flakes off as you use it. The colored lead marks are almost impossible to remove. No known chemical will do it and not injure the goods at the same time."

"Use No. 60 white thread, waxed for quilting. Start with a small knot

that is pulled through the top of the quilt and is then emmeshed in the cotton interlining. Now take small, even stitches, at least 12 of them, to the inch. Use a short, fine needle, one used for quilting, or better still, a crewel. No. 8 is best. Try to finish your thread at a seam. Then you can take two or three small, firm backstitches without showing on the quilt top. Put your needle into the cotton and bring it out two or three centimeters beyond the point where you inserted it. At the third centimeter from the surface, clip it carefully as it emerges. Then the tail of the thread works back into the cotton interlining. Be careful not to draw the thread too tightly when quilting. If it pinches it will break later when the quilt is being shaken or laundered. The strain is more than the thread can stand."

YOUR FIGURE, MADAME!

By IDA JEAN KAIN.

CLOTHES AND FIGURES DEPEND ON POSTURE.

Clothes do not make the woman unless she carries them well. Even Louiseboulangier's smart touch would be lost on a woman who does not know the value of an erect, graceful carriage for the loveliest figure may be obscured by poor posture.

How do you sit? Walk toward a full-length mirror and see for yourself. Your appearance should give the impression of ease and confidence, but a stiff posture looks like an apology. Walk proud, pulling up with the top of your head to make your figure as tall as possible.

See what a difference the little word "up" can make in your appearance! Pull up with those lower abdominal muscles, up with the chest, up with the chin, keeping the level of the shoulders, pull up with the waist toward your full-length mirror, pointing the toes straight ahead of a smooth, rhythmic gait. Toeing out throws the thigh line off balance and gives you weak arches in addition to an awkward walk.

Shoulders are important in walking, too. They should be back, but relaxed, and if your first efforts as posture correction have left a feeling of rigidity, bend over at the waist, let the arms hang loosely toward the floor. Now, shake your shoulders as you straighten up. Really shake—until your shoulder girdle feels loose and free, and all the kinks are out of your spinal column. As you stand, feet pulled up with the lower abdominal muscles and again, get the feeling of tallness.

The easiest posture is the most graceful, but sometimes the wrong muscles have been trained and incorrect posture feels comfortable. If this has happened with your figure, corrective exercises are necessary. Here is an splendid exercise for strengthening the right muscles. Here is a splendid exercise for straightening the shoulder and aligning the figure correctly:

Position — Standing erect, arms straight down at sides, palms of hands against sides of thighs.

Movement — Slowly turn the palms of hands toward the front then back against the thighs. Inhale as the palms are turned frontward, and exhale as they are returned to the starting position.

Better prices hold FARMERS' INCOME UP

Better prices for products are expected to keep farm incomes on a level with last year's earnings in Georgia, despite a decrease in products because of the summer drought, according to a report made yesterday.

Miss Dorothy Kate Brown Weds Robert Ashton Blount in Chicago

A wedding of interest was that of Miss Dorothy Kate Brown, of Atlanta, and Robert Ashton Blount, of Flint, Mich., formerly of Waynesboro, Ga., which was solemnized recently at 5 o'clock at the First Methodist church in Oak Park, in Chicago, Ill. The ceremony was performed by Dr. John H. Howell.

The bride's only attendant was her sister, Mrs. George Duerst Potter, of Atlanta, who was matron of honor. She wore a gown of pale blue silk moire, fashioned princess style. Her picture hat and accessories were matching shade of pink and sage carmine. Her bouquet of roses, lilies, and snapdragons, tied with pink ribbon, was residing in Chicago, where she was engaged in commercial modeling.

The lovely bride entered with her cousin, Jim Campbell, of Chicago, by whom she was given in marriage. Her radiant blond beauty was enhanced by her wedding gown of white satin, made on princess lines, with gracefully half-lacing. Her shoes were of light tan leather, finished with a tiny puffed ruffle of satin. She wore long kid gloves. The square neckline was will reside in Flint.

Mrs. Russell Fay, of Kansas City, Mo., who are visiting Mr. and Mrs. Kenneth Meredith on Habersham road, are providing inspiration for a series of parties given in their home. Mr. and Mrs. George Ferguson, entertainers, informally this evening at their country home near Roswell for the visitors.

Mr. and Mrs. Fay will be honored at the small party given by Stanley B. Ashley Wednesday evening at his home on Piedmont road. They will be central figures at a party to be given Thursday evening at the regular biweekly dinner-dance on the roof garden of the Capital City Club.

Saturday evening they will be complimented at a small party to be given at the door-to-door at the Piedmont City Club. Mr. and Mrs. Ferguson were hosts Sunday evening at the centennial dinner at Brookhaven, the Capital City Country Club, honoring their guests. Mrs. Fay is the former Miss Mary Hiestand, and resided in Atlanta several years ago.

Alfred Colquitt U. D. C.

Alfred H. Colquitt Chapter U. D. C. meets at the Georgian Terrace on September 4 at 3 o'clock. Executive board meets at 2 o'clock. The report of the nominating committee will be heard and new officers elected.

Culbertson on Contract

By ELY CULBERTSON, World's Champion Player and Greatest Card Analyst.

ACCORDING TO CULBERTSON—With is presented another portion of Mr. Culbertson's famous contract, the "Gold Book of Bidding and Play," which is being reproduced in this column in daily installments.

CHAPTER III.

In the flux of constantly changing value of long and short suits, the defensive and offensive are the most important element. They are the cash, liquid assets of the hand, the gold standard of the Culbertson system. They furnish quick entries into partner's hand, and at least a few always survive the worst distributional storms in the hands. This yardstick does very much. Since the best of long and short suits are the defensive tricks, it is possible to gauge at a glance the approximate trick winning expectations not only against opponent's trump bids, but at partnership's own bids and at no trump.

The Culbertson table of honor tricks is divided into three parts:

(1) The defensive honor values from an ace-king-queen down to isolated queens, jacks, and tens. Years of tests have proven that it is simple and uncanny in its accuracy, while remaining flexible.

(2) The assumption that the distribution of suits is such that breakoffs are likely to be ruffed.

Accordingly, information disclosed during the bidding on the position of outstanding honors and on suit lengths will modify the defensive value of honors.

TODAY'S HAND.

East, dealer.
Neither side vulnerable.

PASS

THE BIDDING:

East South West North
1spade 2 diamonds Pass 2 no trump
Pass 3 no trump Pass Pass

East took warning from the bidding and, instead of opening a spade, led his fourth best heart. West won with the king and made the clever return of a low spade instead of the nine, spot, keeping the latter card intact so as to help promote his partner's suit. Declarer played his partner's suit. Declarer had a good lead and was able to drop his partner's suit. Declarer could never be stopped from winning diamonds, one club, and one spade.

If East had controlled his time and allowed dummy to run his seven-card suit and carefully following declarer's discards, East played for a miracle; he laid down the spade ace, on the far-fetched hope of dropping the king in declarer's hand. After that there was nothing to it. With one spade established, declarer could never be stopped from winning diamonds, one club, and one spade.

If East had controlled his time and allowing dummy to run his seven-card suit and carefully following declarer's discards, East played for a miracle; he laid down the spade ace, on the far-fetched hope of dropping the king in declarer's hand. After that there was nothing to it. With one spade established, declarer could never be stopped from winning diamonds, one club, and one spade.

This hand is an excellent example of the steps to be taken by a defender in maintaining his positional advantage over the declarer. Quite obviously, East would have to follow the declarer's discards with an eagle eye in order to gauge the cards that he himself should keep.

TODAY'S QUESTION.

Question: What is the proper lead against a no trump and also a suit, when holding three cards to an honor in suit partner?

Answer: Against a no trump, lead low; against a suit bid lead the top.

PASS

East took warning from the bidding and, instead of opening a spade, led his fourth best heart. West won with the king and made the clever return of a low spade instead of the nine, spot, keeping the latter card intact so as to help promote his partner's suit. Declarer played his partner's suit. Declarer had a good lead and was able to drop his partner's suit. Declarer could never be stopped from winning diamonds, one club, and one spade.

If East had controlled his time and allowing dummy to run his seven-card suit and carefully following declarer's discards, East played for a miracle; he laid down the spade ace, on the far-fetched hope of dropping the king in declarer's hand. After that there was nothing to it. With one spade established, declarer could never be stopped from winning diamonds, one club, and one spade.

If East had controlled his time and allowing dummy to run his seven-card suit and carefully following declarer's discards, East played for a miracle; he laid down the spade ace, on the far-fetched hope of dropping the king in declarer's hand. After that there was nothing to it. With one spade established, declarer could never be stopped from winning diamonds, one club, and one spade.

This hand is an excellent example of the steps to be taken by a defender in maintaining his positional advantage over the declarer. Quite obviously, East would have to follow the declarer's discards with an eagle eye in order to gauge the cards that he himself should keep.

TODAY'S QUESTION.

Question: What is the proper lead against a no trump and also a suit, when holding three cards to an honor in suit partner?

Answer: Against a no trump, lead low; against a suit bid lead the top.

TOMORROW'S HAND.

ADVANCE IS RECORDED BY SEPTEMBER CORN

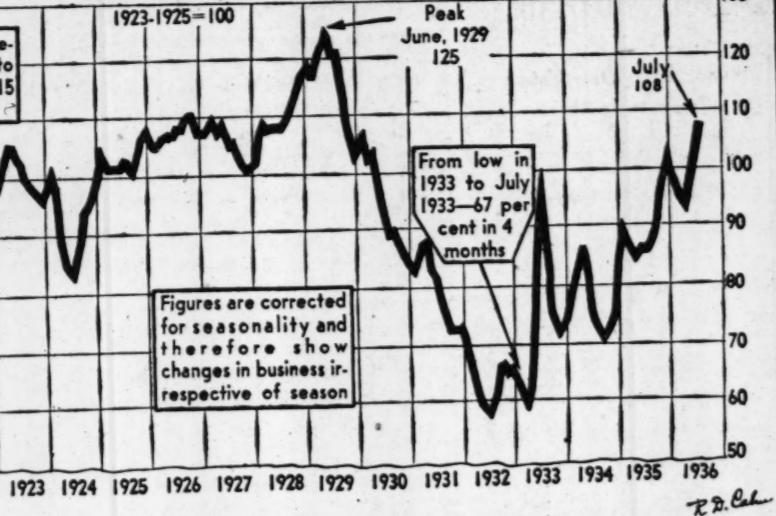

Other Grain Values Recede
in Chicago Pit; Provisions Firm.

CHICAGO GRAIN AND PROVISIONS.

Industrial Production as Reported by the U. S.

Based upon an index of total production in the United States as calculated by the Federal Reserve Board

Market Outlook

By FRANKLIN MULLIN,
CHICAGO, Aug. 31.—(P)—Only
September contracts, on which
delivery must be made during the
month, closed higher yesterday.
The stock market finished higher for
the third consecutive day, and business conditions today
furnished a good background for Sup-
ply.

Corn closed 1 1/4 lower to 78 1/2
higher compared with yesterday's
close. September 1, 1937, at 97, De-
cember 1, 1938, at 93, May 8-8, at
88 3/4. Wheat lost 5 1/2 to 78 1/2.
Sept. 10, 1936, to 109, December 1, 1937,
at 109 1/2 to 109 1/4. Mar. 1, 1938, to
107, and oats lost 3 1/2 to 104 1/2.
Barley was higher. Trading volume
yesterday was 211,000 shares
compared to 237,000 Friday.

Trading was slow today but steel
shares continued to advance, went
into new highs. Motors showed
some life, and automobile equipment
shares were higher. Trading volume
yesterday was 211,000 shares
compared to 237,000 Friday.

For August the market in Dow-
Jones averages showed:

Industrial 166.29 + 1.40
Railroad 54.78 + 1.28
Utility 34.17 + 0.12

It is notable that the heavy in-
vestments made the best showing,
stocks in particular. This traces to
the continued high production levels
in the steel industry and forecasts that
the level will be maintained well into
next year. The schedule for this week
is 71 1/2 per cent of capacity, a point
of great interest to the American
Iron and Steel Industry reported.

But even the decline held the rate
around the year's high.

Meanwhile the Street was interested
in the report of the magazine Steel
which told of possibility of five or six
eastern railroads ordering 100,000
motives in 1937. It will be the heaviest railroad ordering
in six years and shows another upturn
in the heavy goods industries. This
is one of the favorable factors that
business is developing.

Many traders are cautious in view
of the Labor Day holiday next week
while others are awaiting the outcome
of the Maine election on September
15 before making new commitments.

Earnings.

NEW YORK, Aug. 31—Colgate Corpo-
ration, manufacturer of building and
laundry products, with principal plants in
Louisville and headquarters in Chicago,
posted net earnings of \$1,000,000 for
July, up 3 1/2 per cent from \$965,000
in July, 1935. Net sales were \$1,254,-
000. No. 2 yellow, \$1.15; No. 3 white
yellow, \$1.15; No. 4 white lake, \$1.21;

No. 2 white Illinois proportionals \$1.25; No.
3 white, same grade, \$1.05; No. 2 white
Illinois proportionals \$1.25; No. 3 white
Illinois proportionals \$1.05.

Net sales \$1.35; No. 1 white, \$1.50;
No. 2 white, \$1.50; No. 3 white, \$1.50.

Barley actual sales \$1.36; feed 70¢/55c
nominal; mailing \$1.00/1.00 nominal.

Timothy seed: \$3.00/3.15; new crop \$3.50.

Oats: \$1.12; barley, \$1.12.

ST. LOUIS, Aug. 31.—Cash: Wheat, No.
2 and No. 3 yellow \$1.12; No. 3 white
\$1.12; No. 2 yellow \$1.12; No. 3 white
\$1.12; No. 2 white lake \$1.12.

Rye: \$1.12; No. 2 white \$1.12.

Barley: actual sales \$1.36; feed 70¢/55c
nominal; mailing \$1.00/1.00 nominal.

Bellies: \$1.12.

THE CONSTITUTION

CLASSIFIED
ADVERTISING
Information

CLOSING HOURS

Want Ads are accepted up to 9 p.m. for publication the next day. The closing hour for the Sunday edition is 8:30 p.m. Saturday.

LOCAL CLASSIFIED RATES

Daily and Sunday rates per line for consecutive insertions:

One time 27 cents
Three times 19 cents
Seven times 17 cents
Thirty times 13 cents
Minimum, 2 lines (12 words).

10% Discount for Cash

In estimating the space to an ad figure six average words to a line.

Ads ordered for three or seven days will be charged for the number of times the ad appeared and adjustments made at the rate earned.

Ads containing errors must be reported immediately. The Constitution will not be responsible for more than one incorrect insertion.

Advertisers are restricted to their present classification. The Constitution reserves the right to refuse or reject any advertisement.

Ads offered by telephone are accepted from persons calling collect on the telephone or city directory on memo random charge only. In return for this courtesy the advertiser is expected to remit promptly.
